

BILLING CHANGES For Sewer, Garbage & Recycling User Fees

Sewer, garbage and recycling fees will no longer be included on your annual property tax notice. These fees are now included with your quarterly utility invoice for water.

For customers that pay their taxes through preauthorized payments or the mortgage company pays their taxes can request any overpayment be transferred to their utility account.

Please direct any enquires to the Finance Department at 250-485-6200 or by email to finance@oliver.ca.

This change will result in the property tax notice providing a true reflection of taxes as well as increase administrative efficiency with ongoing changes to billing.
