

UTILITY INVOICES

For Immediate Release
JANUARY 30, 2018

BILLING CHANGES FOR SEWER, GARBAGE AND RECYCLING USER FEES

Commencing 2018 user fees for sewer, garbage and recycling will no longer be included on the annual property tax notice. These fees will be included with the quarterly water utility invoice. For a single family dwelling this will decrease property taxes by \$368.00 and increase the quarterly utility invoice by \$92.00.

For customers that pay their taxes through preauthorized payments or have the mortgage company pays their taxes can request any overpayment be transferred to their utility account or have it refunded once the tax notices are printed.

This change will result in the property tax notice providing a true reflection of taxes as well as increase administrative efficiency with ongoing changes to billings.

Please direct any enquiries to the Finance Department at 250-485-6200 or by email to finance@oliver.ca.
