

VEHICLE BRIDGE MAINTENANCE

Bridge Maintenance – April 10 – 19, 2017

The Town of Oliver has hired SCR Contracting Services Ltd. to undertake some bridge deck and expansion joint maintenance work starting **April 10th**.

The Fairview Road Bridge maintenance work will involve compression seal joint & intermediate joint sealing, joint cleaning and surface deck restoration. This work will last for approximately 10 days but there will be no shut downs during the Easter long weekend. People will experience traffic control entering the bridge, lane control, slowdowns and temporary shut downs for the duration of the project.

We ask the public to be patient and courteous towards the traffic control as this work helps to improve and prolong the health of the bridge. For more information, please contact the Town of Oliver's Public Works Office at 250-485-6213.
