## **PUBLIC NOTICE**

---

### **2020 FLUSHING OF SEWER LINES**

The Town of Oliver will commence its 2020 sewer line-flushing program within the municipality starting **March 16**, until approximately **the first week in April 2020**. Periodic flushing is necessary to prevent the buildup of sediment, which may result in blockages.

Sewer line flushing may result in some splashing from the toilet if the sewer system in your building is not adequately vented. To avoid any inconvenience, place your toilet lid in the down position with a garbage bag or piece of plastic placed beneath it.

**The 2020 flushing program will affect the following areas within the Town's boundaries:**

- **West of Okanagan River and**
- **North of Similkameen Avenue**

We thank you for your cooperation and apologize for any inconvenience. For further information, please contact Public Works at 250-485-6213.
